

Higher Education Opportunity Act Disclosures

American InterContinental University acquired the assets of Trident University International (“Trident”) on March 2, 2020. As of that date, Trident students are classified as students who transferred to AIU. That group of Trident students are only included in data which includes transfer students since they are not first-time, full-time students at AIU. Trident students will be included in these disclosures in future years when they reach the cohort included in the respective rates provided below.

In November 2020, AIU changed its name to the American InterContinental University System (“AIUS” or “System”). The AIUS is composed of two units: American InterContinental University and Trident University International. The System will continue to report consolidated data in the manner described above.

The rates provided below are historical rates for the AIUS prior to the addition of Trident and should not be relied upon by prospective students who enroll in a Trident University International program.

2019 Graduation Rates by Race/Ethnicity, Gender, and Pell Grant/Direct Subsidized Loan Recipients

The cohort consists of all full-time degree-seeking undergraduate students entering college for the first time in fall 2013. The graduation rate is the percent of the cohort graduating within 150% normal time for the program.

The fall 2013 total cohort was reported to IPEDS within the 2019-20 collection year's Graduation Rates survey. Recipients are defined as those students receiving and using their Pell Grant or Subsidized Direct loan; these students must receive and use the award within their first year at the institution only.

This section does not include Trident students since they became part of the AIU System after the end of this date range and are not part of the fall 2013 cohort.

Retention Rates

(First time undergraduate Bachelor's degree student retention rates)

The AIU System's retention rate is based on students who enrolled at AIUS during the period of July 1 – October 15 for the respective year listed below, as reported to the **Integrated Postsecondary Education Data System (IPEDS)**. The students contained in the calculation only represent a subset of the AIU student population as a whole. The student subset below did not attend another college or university prior to enrolling in a Bachelor's Degree program at the AIUS. The calculation reflects the percentage of students who began their studies in the fall and continued their studies as of the following fall. This is the most current retention data available as last collected by IPEDS during their 2019-20 collection.

This section does not include Trident students since they became part of the AIU System after the end of this date range.
